## 2024 INSPECTION

In the 2024 inspection of JTC Fair Song CPA Firm, the Public Company Accounting Oversight Board (PCAOB) assessed the firm's compliance with laws, rules, and professional standards applicable to the audits of public companies. Our inspection was conducted in cooperation with the China Securities Regulatory Commission and the Ministry of Finance of the People's Republic of China.

We selected for review one audit of an issuer with a fiscal year ending in 2022. For the issuer audit selected, we reviewed a portion of the audit. We also evaluated elements of the firm's system of quality control.

### 2024 Inspection Approach

In selecting issuer audits for review, we use a risk-based method of selection. We make selections based on (1) our internal evaluation of audits we believe have a heightened risk of material misstatement, including those with challenging audit areas, and (2) other risk-based characteristics, including issuer and firm considerations. In certain situations, we may select all of the firm's issuer audits for review.

When we review an audit, we do not review every aspect of the audit. Rather, we generally focus our attention on audit areas we believe to be of greater complexity, areas of greater significance or with a heightened risk of material misstatement to the issuer's financial statements, and areas of recurring deficiencies. We may also select some audit areas for review in a manner designed to incorporate unpredictability.

Our selection of audits for review does not necessarily constitute a representative sample of the firm's total population of issuer audits. Additionally, our inspection findings are specific to the particular portions of the issuer audits reviewed. They are not an assessment of all of the firm's audit work or of all of the audit procedures performed for the audits reviewed.

View the details on the [scope of our inspections and our inspections procedures](#).

# OVERVIEW OF THE 2024 INSPECTION

The following information provides an overview of our 2024 inspection, which was our first inspection of this firm. We use a risk-based method to select audits for review and to identify areas on which we focus our review. Because our inspection process evolves over time, it can, and often does, focus on a different mix of audits and audit areas from inspection to inspection and firm to firm. Further, a firm's business, the applicable auditing standards, or other factors can change from the time of one inspection to the next. As a result of these variations, we caution that our inspection results are not necessarily comparable over time or among firms.

## Firm Data and Audits Selected for Review

	2024
<b>Firm data</b>	
Total issuer audit clients in which the firm was the principal auditor	1
Total issuer audits in which the firm was not the principal auditor	0
Total engagement partners on issuer audit work <sup>1</sup>	1
<b>Audits reviewed</b>	
Total audits reviewed	1
Audits in which the firm was the principal auditor	1
Integrated audits of financial statements and internal control over financial reporting (ICFR)	0
Audits with Part I.A deficiencies	1
Percentage of audits with Part I.A deficiencies	100%

If we include a deficiency in Part I.A of our report, it does not necessarily mean that the firm has not addressed the deficiency. In many cases, the firm has performed remedial actions after the deficiency was identified. Depending on the circumstances, remedial actions may include performing additional audit procedures, informing management of the issuer of the need for changes to the financial statements or reporting on ICFR, or taking steps to prevent reliance on prior audit reports.

<sup>1</sup> The number of engagement partners on issuer audit work represents the total number of firm personnel (not necessarily limited to personnel with an ownership interest) who had primary responsibility for an issuer audit (as defined in AS 1201, *Supervision of the Audit Engagement*) or for the firm's role in an issuer audit during the twelve-month period preceding the outset of the inspection.

Our inspection may include a review, on a sample basis, of the adequacy of a firm’s remedial actions, either with respect to previously identified deficiencies or deficiencies identified during the current inspection. If a firm does not take appropriate actions to address deficiencies, we may criticize its system of quality control or pursue a disciplinary action.

If we include a deficiency in our report — other than those deficiencies for audits with incorrect opinions on the financial statements and/or ICFR — it does not necessarily mean that the issuer’s financial statements are materially misstated or that undisclosed material weaknesses in ICFR exist. It is often not possible for us to reach a conclusion on those points based on our inspection procedures and related findings because, for example, we have only the information that the auditor retained and the issuer’s public disclosures. We do not have direct access to the issuer’s management, underlying books and records, and other information.

## PART I: INSPECTION OBSERVATIONS

Part I.A of our report discusses deficiencies, if any, that were of such significance that we believe the firm, at the time it issued its audit report(s), had not obtained sufficient appropriate audit evidence to support its opinion(s) on the issuer’s financial statements and/or ICFR.

Part I.B discusses certain deficiencies, if any, that relate to instances of non-compliance with PCAOB standards or rules other than those where the firm had not obtained sufficient appropriate audit evidence to support its opinion(s), including instances of non-compliance with PCAOB rules related to registration and reporting. This section does not discuss instances of potential non-compliance with SEC rules or instances of non-compliance with PCAOB rules related to maintaining independence.

Part I.C discusses instances of potential non-compliance with SEC rules or instances of non-compliance with PCAOB rules, if any, related to maintaining independence.

Consistent with the Sarbanes-Oxley Act (“Act”), it is the Board’s assessment that nothing in Part I of this report deals with a criticism of, or potential defect in, the firm’s quality control system. We discuss any such criticisms or potential defects in Part II. Further, you should not infer from any Part I deficiency, or combination of deficiencies, that we identified a quality control finding in Part II. Section 104(g)(2) of the Act restricts us from publicly disclosing Part II deficiencies unless the firm does not address the criticisms or potential defects to the Board’s satisfaction no later than 12 months after the issuance of this report.

### Classification of Audits with Part I.A Deficiencies

Within Part I.A of this report, we classify each issuer audit in one of the categories discussed below based on the Part I.A deficiency or deficiencies identified in our review.

The purpose of this classification system is to group and present issuer audits by the number of Part I.A deficiencies we identified within the audit as well as to highlight audits with an incorrect opinion on the financial statements and/or ICFR.

## Audits with an Incorrect Opinion on the Financial Statements and/or ICFR

This classification includes instances where a deficiency was identified in connection with our inspection and, as a result, an issuer's financial statements were determined to be materially misstated, and the issuer restated its financial statements. It also includes instances where a deficiency was identified in connection with our inspection and, as a result, an issuer's ICFR was determined to be ineffective, or there were additional material weaknesses that the firm did not identify, and the firm withdrew its opinion, or revised its report, on ICFR.

This classification does not include instances where, unrelated to our review, an issuer restated its financial statements and/or an issuer's ICFR was determined to be ineffective. We include any deficiencies identified in connection with our reviews of these audits in the audits with multiple deficiencies or audits with a single deficiency classification below.

## Audits with Multiple Deficiencies

This classification includes instances where multiple deficiencies were identified that related to a combination of one or more financial statement accounts, disclosures, and/or important controls in an ICFR audit.

## Audits with a Single Deficiency

This classification includes instances where a single deficiency was identified that related to a financial statement account or disclosure or to an important control in an ICFR audit.

# PART I.A: AUDITS WITH UNSUPPORTED OPINIONS

This section of our report discusses the deficiencies identified, by specific issuer audit reviewed, in the audit work supporting the firm's opinion on the issuer's financial statements.

We identify each issuer by a letter (e.g., Issuer A) and industry sector. Each deficiency could relate to several auditing standards, but we reference the PCAOB standard that most directly relates to the requirement with which the firm did not comply.

We present issuer audits below within their respective deficiency classifications (as discussed previously). Within the classifications, we generally present the audits based on our assessment as to the relative significance of the identified deficiencies, taking into account the significance of the financial statement accounts and/or disclosures affected, and/or the nature or extent of the deficiencies.

## Audits with an Incorrect Opinion on the Financial Statements and/or ICFR

None

## Audits with Multiple Deficiencies

### Issuer A – Information Technology

#### Type of audit and related areas affected

In our review, we identified deficiencies in the financial statement audit related to all **Significant Accounts and Disclosures**.

#### Description of the deficiencies identified

The firm did not plan and perform an audit that provided a reasonable basis for its audit opinion on the issuer's financial statements because it limited its procedures to establishing a materiality level for the financial statements, certain risk assessment procedures, confirmation of cash and related party transactions, obtaining letters from creditors confirming they would not demand payment until such time when the issuer had sufficient resources to make payment, and obtaining certain issuer-prepared schedules. (AS 1101.03; AS 1105.04; AS 2101.08 and .10; AS 2110.04; AS 2301.08; AS 2401.57; AS 2410.03; AS 2415.03; AS 2810.30 and .31)

## Audits with a Single Deficiency

None

## PART I.B: OTHER INSTANCES OF NON-COMPLIANCE WITH PCAOB STANDARDS OR RULES

This section of our report discusses certain deficiencies that relate to instances of non-compliance with PCAOB standards or rules other than those where the firm had not obtained sufficient appropriate audit evidence to support its opinion, including instances of non-compliance with PCAOB rules related to registration and reporting. This section does not discuss instances of potential non-compliance with SEC rules or instances of non-compliance with PCAOB rules related to maintaining independence.

When we review an audit, we do not review every aspect of the audit. In some cases, we assess the firm's compliance with specific PCAOB standards or rules on other audits that were not reviewed and include any instances of non-compliance below.

The deficiencies below are presented in numerical order based on the PCAOB standard or rule with which the firm did not comply. We identified the following deficiencies:

- In the audit reviewed, the firm did not obtain the required engagement quality review for the audit. In this instance, the firm was non-compliant with AS 1220, *Engagement Quality Review*.
- In the audit reviewed, the firm did not make any of the required communications to the audit committee. In this instance, the firm was non-compliant with AS 1301, *Communications with Audit Committees*.

- In the audit reviewed, the firm did not provide to management and the audit committee the required communications in writing of material weaknesses identified during the audit. In this instance, the firm was non-compliant with AS 1305, *Communications About Control Deficiencies in an Audit of Financial Statements*.
- In the audit reviewed, the engagement team did not perform any procedures to comply with the requirements related to critical audit matters. In this instance, the firm was non-compliant with AS 3101, *The Auditor's Report on an Audit of Financial Statements When the Auditor Expresses an Unqualified Opinion*. This instance of non-compliance does not necessarily mean that critical audit matters should have been communicated in the auditor's report.
- The firm did not file its annual reports on Form 2 for three years. In these instances, the firm was non-compliant with PCAOB Rule 2200, *Annual Report*.
- In one instance, the firm did not file its report on Form 3 by the relevant deadline. In this instance, the firm was non-compliant with PCAOB Rule 2203, *Special Reports*.
- In the audit reviewed and in one other audit, the firm did not file its report on Form AP by the relevant deadline. In these instances, the firm was non-compliant with PCAOB Rule 3211, *Auditor Reporting of Certain Audit Participants*.
- In the audit reviewed, the firm did not provide the audit committee with the required independence communications. In this instance, the firm was non-compliant with PCAOB Rule 3526, *Communication with Audit Committees Concerning Independence*.

## PART I.C: INDEPENDENCE

This section of our report discusses instances of potential non-compliance with SEC rules or instances of non-compliance with PCAOB rules related to maintaining independence. An instance of potential non-compliance with SEC rules or an instance of non-compliance with PCAOB rules does not necessarily mean that the Board has concluded the firm was not objective and impartial throughout the audit and professional engagement period. Although this section includes instances of potential non-compliance that we identified, there may be other instances of non-compliance with SEC or PCAOB rules related to independence that were not identified through our procedures or the firm's monitoring activities.

### PCAOB-Identified

We identified the following instances of potential non-compliance with SEC rules or instances of non-compliance with PCAOB rules related to maintaining independence:

- An audit client's agreement to indemnify its auditor with respect to certain liabilities is inconsistent with the general standard of independence set out in Rule 2-01(b) of Regulation S-X and impairs the accountant's independence with respect to an audit client. In one audit reviewed, we identified one instance for one issuer in which this circumstance appears to have occurred.

- Under Rule 2-01(c)(7) of Regulation S-X, an accountant is not independent if it is engaged to render audit or non-audit services to an issuer or its subsidiaries without that engagement having been pre-approved by the audit committee. In one audit reviewed, we identified one instance for one issuer in which the firm could provide no persuasive evidence of the necessary audit committee pre-approval.

## Firm-Identified

The firm did not bring to our attention any instances of potential non-compliance with SEC rules or instances of non-compliance with PCAOB rules related to maintaining independence.

While the firm did not bring to our attention any instances of potential non-compliance, the number, large or small, of firm-identified instances of potential non-compliance may be reflective of the size of the firm, including the number of associated firms; the design and effectiveness of the firm's independence monitoring activities; and the size and/or complexity of the issuers it audits, including the number of affiliates of those issuers. Therefore, we caution against making any comparison of firm-identified instances of potential non-compliance across firms.

## PART II: OBSERVATIONS RELATED TO QUALITY CONTROL

Part II of our report discusses criticisms of, and potential defects in, the firm's system of quality control.

We include deficiencies in Part II if an analysis of the inspection results, including the results of the reviews of individual audits, indicates that the firm's system of quality control does not provide reasonable assurance that firm personnel will comply with applicable professional standards and requirements. Generally, the report's description of quality control criticisms is based on observations from our inspection procedures.

This report does not reflect changes or improvements to the firm's system of quality control that the firm may have made subsequent to the period covered by our inspection. The Board does consider such changes or improvements in assessing whether the firm has satisfactorily addressed the quality control criticisms or defects no later than 12 months after the issuance of this report.

When we issue our reports, we do not make public criticisms of, and potential defects in, the firm's system of quality control, to the extent any are identified. If a firm does not address to the Board's satisfaction any criticism of, or potential defect in, the firm's system of quality control within 12 months after the issuance of our report, we will make public any such deficiency.

# APPENDIX A: FIRM'S RESPONSE TO THE DRAFT INSPECTION REPORT

Pursuant to Section 104(f) of the Act, 15 U.S.C. § 7214(f), and PCAOB Rule 4007(a), the Board provided the firm an opportunity to review and comment on a draft of this report. The firm did not provide a written response.
