Report on

2013 Inspection of TiaoHo & Co.
(Headquartered in Taipei, Taiwan)

Issued by the

Public Company Accounting Oversight Board

May 1, 2014

PCAOB RELEASE NO. 104-2014-122

2013 INSPECTION OF TIAOHO & CO.

In 2013, the Public Company Accounting Oversight Board ("PCAOB" or "the Board") conducted an inspection of the registered public accounting firm TiaoHo & Co. ("the Firm"). The Board is issuing this report of that inspection in accordance with the requirements of the Sarbanes-Oxley Act of 2002 ("the Act").

The inspection process is designed, and inspections are performed, to provide a basis for assessing the degree of compliance by a firm with applicable requirements related to issuer audit engagements. The issuer audit engagement and aspects of that work inspected were selected based on a number of risk-related and other factors. The inspection process included reviews of aspects of selected issuer audit work completed by the inspected firm. The reviews were intended to identify whether deficiencies existed in those aspects of the audit work, and whether such deficiencies indicated weaknesses or defects in the firm's system of quality control over issuer audit work. In addition, the inspection included reviews of policies and procedures related to certain quality control processes of the firm that could be expected to affect audit work quality.

The Act restricts the Board from publicly disclosing portions of an inspection report that discuss certain types of deficiencies or certain other nonpublic information. Because the inspection did not identify instances of such deficiencies, and because the report does not otherwise disclose protected information, the Board is making the entire report available to the public.^{1/}

^{1/} In its *Statement Concerning the Issuance of Inspection Reports*, PCAOB Release No. 104-2004-001 (August 26, 2004), the Board described its approach to making inspection-related information publicly available consistent with legal restrictions.

PART I

INSPECTION PROCEDURES AND CERTAIN OBSERVATIONS

Members of the Board's inspection staff ("the inspection team") conducted primary procedures for the inspection from November 11, 2013 to November 15, 2013. These procedures were tailored to the nature of the Firm, certain aspects of which the inspection team understood at the outset of the inspection to be as follows:

Number of offices	3 (Kaohsiung, Taichung, and Taipei, Taiwan)
Ownership structure	Partnership
Number of partners	12
Number of professional staff ^{2/}	80
Number of issuer audit clients ^{3/}	None

^{2/} "Professional staff" includes all personnel of the Firm, except partners or shareholders and administrative support personnel. The number of partners and professional staff is provided here as an indication of the size of the Firm, and does not necessarily represent the number of the Firm's professionals who participate in audits of issuers or are "associated persons" (as defined in the Act) of the Firm.

^{3/} The number of issuer audit clients shown here is based on the Firm's self-reporting and the inspection team's review of certain information for inspection planning purposes. It does not reflect any Board determination concerning which, or how many, of the Firm's audit clients are "issuers" as defined in the Act. For information about audit reports issued by the Firm, see Item 4.1 of the Firm's annual reports on PCAOB Form 2, available at www.pcaobus.org.

Number of other issuer audits 1
in which the Firm plays a role^{4/}

A. Review of Audit Engagement

The inspection procedures included a review of aspects of the Firm's audit work on one issuer audit engagement in which it played a role but was not the principal auditor. This review did not identify any audit performance issues that, in the inspection team's view, resulted in the Firm failing to obtain sufficient appropriate audit evidence to fulfill the objectives of its role in the engagement.

B. Review of Quality Control System

In addition to evaluating the quality of the audit work performed, the inspection included review of certain of the Firm's practices, policies, and procedures related to audit quality. This review addressed practices, policies, and procedures concerning audit performance, training, compliance with independence standards, client acceptance and retention, and the establishment of policies and procedures. The inspection team did not identify anything that it considered to be a quality control defect that warrants discussion in a Board inspection report.

C. General Information Concerning PCAOB Inspections

Board inspections are designed to identify whether weaknesses and deficiencies exist related to how a firm conducts audit work and address any such weaknesses and deficiencies. To achieve that goal, Board inspections include reviews of certain aspects of selected audit work performed by the firm and reviews of other matters related to the firm's quality control system. The scope of the inspection procedures is determined according to the Board's criteria, and the firm is not allowed an opportunity to limit or influence the scope. The focus on weaknesses and deficiencies necessarily carries through to reports on inspections and, accordingly, Board inspection reports are not intended to serve as balanced report cards or overall rating tools. Further, the inclusion

^{4/} The number of other issuer audits encompasses audit work performed by the Firm in engagements for which the Firm was not the principal auditor, including audits, if any, in which the Firm plays a substantial role as defined in PCAOB Rule 1001(p)(ii).

in an inspection report of certain deficiencies and potential deficiencies should not be construed as an indication that the Board has made any determination about other aspects of the firm's systems, policies, procedures, practices, or conduct not included within the report.

In the course of reviewing aspects of selected audit work, an inspection may identify ways in which particular audit work is deficient, including failures by the firm to identify, or to address appropriately, departures from U.S. Generally Accepted Accounting Principles ("GAAP"), or, as applicable, International Financial Reporting Standards as issued by the International Accounting Standards Board ("IFRS").^{5/} It is not the purpose of an inspection, however, to review all of a firm's audit work or to identify every respect in which an audit performed by the firm, or in which the firm played a role, is deficient. Accordingly, a Board inspection report should not be understood to provide any assurance that the firm's audit work, or the relevant issuer financial statements or reporting on internal control, are free of any deficiencies not specifically described in an inspection report.

END OF PART I

^{5/} When it comes to the Board's attention that an issuer's financial statements appear not to present fairly, in a material respect, the financial position, results of operations, or cash flows of the issuer in conformity with GAAP or IFRS, the Board's practice is to report that information to the Securities and Exchange Commission, which has jurisdiction to determine proper accounting in issuers' financial statements.

PART II

RESPONSE OF THE FIRM TO DRAFT INSPECTION REPORT

Pursuant to section 104(f) of the Act, 15 U.S.C. § 7214(f), and PCAOB Rule 4007(a), the Board provided the Firm an opportunity to review and comment on a draft of this report. The Firm did not provide a written response.
