Report on

2013 Inspection of

DKM Certified Public Accountants Inc
(Headquartered in Clearwater, Florida)

Issued by the

Public Company Accounting Oversight Board

December 18, 2014

THIS IS A PUBLIC VERSION OF A PCAOB INSPECTION REPORT

**PORTIONS OF THE COMPLETE REPORT ARE OMITTED
FROM THIS DOCUMENT IN ORDER TO COMPLY WITH
SECTIONS 104(g)(2) AND 105(b)(5)(A)
OF THE SARBANES-OXLEY ACT OF 2002**

PCAOB RELEASE NO. 104-2015-048

2013 INSPECTION OF DKM CERTIFIED PUBLIC ACCOUNTANTS INC

In 2013, the Public Company Accounting Oversight Board ("PCAOB" or "the Board") conducted an inspection of the registered public accounting firm DKM Certified Public Accountants Inc¹ ("the Firm"). The Board is issuing this report of that inspection in accordance with the requirements of the Sarbanes-Oxley Act of 2002 ("the Act").

The inspection process is designed, and inspections are performed, to provide a basis for assessing the degree of compliance by a firm with applicable requirements related to auditing issuers. The inspection process included reviews of aspects of selected issuer audits completed by the inspected firm. The reviews were intended to identify whether deficiencies existed in those aspects of the audits, and whether such deficiencies indicated weaknesses or defects in the firm's system of quality control over audits. In addition, the inspection included review of policies and procedures related to certain quality control processes of the firm that could be expected to affect audit quality.

The issuer audits and aspects of those audits inspected were selected based on a number of risk-related and other factors. Due to the selection process, the deficiencies included in this report are not necessarily representative of the Firm's issuer audit practice.

The Board is making portions of the report publicly available. Specifically, the Board is releasing to the public Part I of the report and portions of Part IV of the report. Part IV of the report consists of the Firm's comments, if any, on a draft of the report.²

¹ The Firm has issued audit reports under the names of Drake & Klein CPAs and DKM Certified Public Accountants.

² In its *Statement Concerning the Issuance of Inspection Reports*, PCAOB Release No. 104-2004-001 (August 26, 2004), the Board described its approach to making inspection-related information publicly available consistent with legal restrictions. As described there, if the nonpublic portions of any inspection report discuss criticisms of or potential defects in a firm's system of quality control, those discussions also could eventually be made public, but only to the extent a firm fails to address the criticisms to the Board's satisfaction within 12 months of the issuance of the report.

PART I

INSPECTION PROCEDURES AND CERTAIN OBSERVATIONS

Members of the Board's inspection staff ("the inspection team") conducted primary procedures for the inspection from December 2, 2013 to December 12, 2013. These procedures were tailored to the nature of the Firm, certain aspects of which the inspection team understood at the outset of the inspection to be as follows:

Number of offices	2 (Clearwater and New Port Richey, Florida)
Ownership structure	Corporation
Number of partners	2
Number of professional staff ³	8
Number of issuer audit clients ⁴	41

³ "Professional staff" includes all personnel of the Firm, except partners or shareholders and administrative support personnel. The number of partners and professional staff is provided here as an indication of the size of the Firm, and does not necessarily represent the number of the Firm's professionals who participate in audits of issuers or are "associated persons" (as defined in the Act) of the Firm.

⁴ The number of issuer audit clients shown here is based on the Firm's self-reporting and the inspection team's review of certain information for inspection planning purposes. It does not reflect any Board determination concerning which, or how many, of the Firm's audit clients are "issuers" as defined in the Act. For information about audit reports issued by the Firm, see Item 4.1 of the Firm's annual reports on PCAOB Form 2, available at www.pcaobus.org.

A. Review of Audit Engagements

The inspection procedures included a review of aspects of the Firm's auditing of financial statements of four issuers. The inspection team identified what it considered to be audit deficiencies. The deficiencies identified in all of the audits reviewed included deficiencies of such significance that it appeared to the inspection team that the Firm, at the time it issued each audit report, had not obtained sufficient appropriate audit evidence to support its opinion on the issuer's financial statements. Those deficiencies were –

Issuer A

- (1) the failure to perform sufficient procedures to test the occurrence and valuation of revenue from continuing operations, including the use of sampling with an inadequate sample size developed without consideration of appropriate factors;
- (2) the failure to perform sufficient procedures to test the completeness, valuation, and presentation and disclosure of discontinued operations; and
- (3) the failure to perform sufficient procedures to test the existence, completeness, and valuation of accounts receivable.

Issuer B

- (1) the failure to perform sufficient procedures to test the existence, valuation, and rights of certain long-lived assets, including the failure to evaluate whether the assets were impaired; and
- (2) the failure to perform sufficient procedures to test the valuation of common stock issued to settle debt.

Issuer C

- (1) the failure to perform sufficient procedures to test restricted stock awards; and

- (2) the failure to perform sufficient procedures to test the accounting for an acquisition.

Issuer D

the failure to perform sufficient procedures to test the occurrence, completeness, and valuation of revenue, including the inadequate performance of substantive analytical procedures.

B. Auditing Standards

Each deficiency described above relates to several applicable standards that govern the conduct of audits.

AU 230, *Due Professional Care in the Performance of Work* ("AU 230"), requires the independent auditor to plan and perform his or her work with due professional care. AU 230 and PCAOB Auditing Standard No. 13, *The Auditor's Responses to the Risks of Material Misstatement* ("AS No. 13"), specify that due professional care requires the exercise of professional skepticism. This is an attitude that includes a questioning mind and a critical assessment of the appropriateness and sufficiency of audit evidence.

AS No. 13 requires the auditor to design and implement audit responses that address the identified risks of material misstatement, and PCAOB Auditing Standard No. 15, *Audit Evidence* ("AS No. 15"), requires the auditor to plan and perform audit procedures to obtain sufficient appropriate audit evidence to provide a reasonable basis for the audit opinion. Sufficiency is the measure of the quantity of audit evidence, and the quantity needed is affected by the risk of material misstatement and the quality of the audit evidence obtained. The appropriateness of evidence is measured by its quality; to be appropriate, evidence must be both relevant and reliable in support of the related conclusions.

Each deficiency described in Part I.A of this report involves, in the inspection team's view, a failure to comply with one or more of the provisions cited above and also a failure to perform, or perform sufficiently, certain specific audit procedures that are required by other applicable auditing standards. The table below lists the other specific

auditing standards that are primarily implicated by the deficiencies identified in Part I.A of this report.⁵

PCAOB Auditing Standards	Issuers
AS No. 12, <i>Identifying and Assessing Risks of Material Misstatement</i>	A
AU 328, <i>Auditing Fair Value Measurements and Disclosures</i>	B
AU 329, <i>Substantive Analytical Procedures</i>	D
AU 342, <i>Auditing Accounting Estimates</i>	B
AU 350, <i>Audit Sampling</i>	A

C. Review of Quality Control System

In addition to evaluating the quality of the audit work performed on specific audits, the inspection included review of certain of the Firm's practices, policies, and procedures related to audit quality. This review addressed practices, policies, and procedures concerning audit performance, training, compliance with independence standards, client acceptance and retention, and the establishment of policies and procedures. Any defects in, or criticisms of, the Firm's quality control system are discussed in the nonpublic portion of this report and will remain nonpublic unless the Firm fails to address them to the Board's satisfaction within 12 months of the date of this report.

⁵ This table does not necessarily include reference to every auditing standard that may have been implicated by the deficiencies included in Part I.A.

D. General Information Concerning PCAOB Inspections

Board inspections are designed to identify whether weaknesses and deficiencies exist related to how a firm conducts audits and addresses any such weaknesses and deficiencies. To achieve that goal, Board inspections include reviews of certain aspects of selected audits performed by the firm and reviews of other matters related to the firm's quality control system. The scope of the inspection procedures is determined according to the Board's criteria, and the firm is not allowed an opportunity to limit or influence the scope. The focus on weaknesses and deficiencies necessarily carries through to reports on inspections and, accordingly, Board inspection reports are not intended to serve as balanced report cards or overall rating tools. Further, the inclusion in an inspection report of certain deficiencies and potential deficiencies should not be construed as an indication that the Board has made any determination about other aspects of the firm's systems, policies, procedures, practices, or conduct not included within the report.

In the course of reviewing aspects of selected audits, an inspection may identify ways in which a particular audit is deficient, including failures by the firm to identify, or to address appropriately, respects in which an issuer's financial statements do not present fairly the financial position, results of operations, or cash flows of the issuer in conformity with Generally Accepted Accounting Principles ("GAAP").⁶ It is not the purpose of an inspection, however, to review all of a firm's audits or to identify every respect in which a reviewed audit is deficient. Accordingly, a Board inspection report should not be understood to provide any assurance that the firm's audits, or its issuer clients' financial statements or reporting on internal control, are free of any deficiencies not specifically described in an inspection report.

⁶ When it comes to the Board's attention that an issuer's financial statements appear not to present fairly, in a material respect, the financial position, results of operations, or cash flows of the issuer in conformity with applicable accounting principles, the Board's practice is to report that information to the Securities and Exchange Commission ("SEC" or "Commission"), which has jurisdiction to determine proper accounting in issuers' financial statements. Any description in this report of financial statement misstatements or failures to comply with SEC disclosure requirements should not be understood as an indication that the SEC has considered or made any determination regarding these issues unless otherwise expressly stated.

In some cases, an inspection team's observation that a firm failed to perform a procedure may be based on the absence of documentation and the absence of persuasive other evidence, even if a firm claims to have performed the procedure. PCAOB Auditing Standard No. 3, *Audit Documentation* ("AS No. 3"), provides that, in various circumstances including PCAOB inspections, a firm that has not adequately documented that it performed a procedure, obtained evidence, or reached an appropriate conclusion must demonstrate with persuasive other evidence that it did so, and that oral assertions and explanations alone do not constitute persuasive other evidence. See AS No. 3, paragraph 9 and Appendix A to AS No. 3, paragraph A28. For purposes of the inspection, an observation that the Firm did not perform a procedure, obtain evidence, or reach an appropriate conclusion may be based on the absence of such documentation and the absence of persuasive other evidence.

Inclusion of a deficiency in an inspection report does not mean that the deficiency remained unaddressed after the inspection team brought it to the firm's attention. Under PCAOB standards, when audit deficiencies are discovered after the date of the audit report, a firm must take appropriate action to assess the importance of the deficiencies to the firm's present ability to support its previously expressed audit opinions.⁷ Depending upon the circumstances, compliance with these standards may require the firm to perform additional procedures, or to inform a client of the need for changes to its financial statements or reporting on internal control, or to take steps to prevent reliance on previously expressed audit opinions. A Board inspection does not typically include review of a firm's actions to address deficiencies identified in that inspection, but the Board expects that firms are attempting to take appropriate action, and firms frequently represent that they have taken, are taking, or will take, action. If, through subsequent inspections or other processes, the Board determines that the firm failed to take appropriate action, that failure may be grounds for a Board disciplinary sanction.

END OF PART I

⁷ See AU 390, *Consideration of Omitted Procedures After the Report Date* ("AU 390"), and AU 561, *Subsequent Discovery of Facts Existing at the Date of the Auditor's Report* ("AU 561") (both included among the PCAOB's interim auditing standards, pursuant to PCAOB Rule 3200T).

PARTS II AND III OF THIS REPORT ARE NONPUBLIC
AND ARE OMITTED FROM THIS PUBLIC DOCUMENT

PART IV

RESPONSE OF THE FIRM TO DRAFT INSPECTION REPORT

Pursuant to section 104(f) of the Act, 15 U.S.C. § 7214(f), and PCAOB Rule 4007(a), the Firm provided a written response to a draft of this report. Pursuant to section 104(f) of the Act and PCAOB Rule 4007(b), the Firm's response, minus any portion granted confidential treatment, is attached hereto and made part of this final inspection report.⁸

⁸ The Board does not make public any of a firm's comments that address a nonpublic portion of the report unless a firm specifically requests otherwise. In some cases, the result may be that none of a firm's response is made publicly available. In addition, pursuant to section 104(f) of the Act, 15 U.S.C. § 7214(f), and PCAOB Rule 4007(b), if a firm requests, and the Board grants, confidential treatment for any of the firm's comments on a draft report, the Board does not include those comments in the final report at all. The Board routinely grants confidential treatment, if requested, for any portion of a firm's response that addresses any point in the draft that the Board omits from, or any inaccurate statement in the draft that the Board corrects in, the final report.

RE: 2013 Inspection Report Response

Dear Sirs:

We welcome this opportunity to provide our responses to Part I of the draft report of the Public Company Accounting Oversight Board (PCAOB) on the 2013 inspection of DKM Certified Public Accountants (DKM). We support the PCAOB's goal of improving audit quality and the reliability of financial reporting.

DKM is committed to improving our audit processes and quality and we acknowledge considerable value is derived from the inspection process. The PCAOB inspections are one of the tools that assist of in identifying areas where we can continue to improve performance.

Recognizing the importance and value of the inspection process, we cooperated fully with the inspection team. We did this with the understanding that, while there may be reasonable differences in the approaches, accounting decisions or materiality due to the subjectivity of some matters, the consideration of different views from the inspection team is a useful means of promoting best practices.

The sufficiency of evidential matter required to support an informed audit opinion is determined through the exercise of the auditor's professional judgment after careful study of the particular circumstances. Reaching a common understanding of what is sufficient for a particular engagement can be very difficult due to the variety of judgments involved in that analysis by professional having different levels of knowledge of the issuer's business.

We will continue to evaluate and improve our Firm's system of quality controls. We are committed to performing our audits to ensure that sufficient evidence is gathered to support our audit opinions. We appreciate the views and advice of the PCAOB. We appreciate the opportunity to provide responses to the inspection findings and we look forward to working with the PCAOB to improve audit quality.

We ask that the following responses but kept confidential and non-public.

Sincerely,

DKM Certified Public Accountants

DKM Certified Public Accountants
